COLORADO
DEPARTMENT OF

Office of The Executive Director

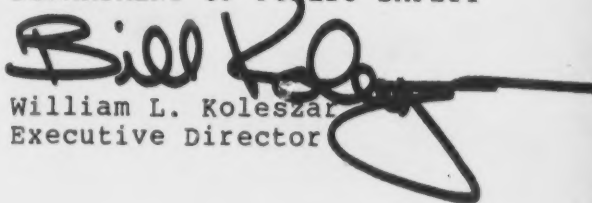

"CRIME IN COLORADO - 1985"

This report documents that Colorado is not an island, remote and secure from the problem of violent criminal activity, or from the multitude of other crimes which so degrade the quality of life in America. We are all victims of crime, either directly or indirectly, and the monetary and emotional expense of our victimization is unacceptable. It is time for us to find new and better ways to defend our citizens from the outrage of unprovoked criminal attack.

The Colorado Department of Public Safety stands ready to support all Colorado law enforcement agencies as we move ahead together.

Sincerely,

DEPARTMENT OF PUBLIC SAFETY

In 1985 crime in Colorado rose both in volume and in rate, reversing a downward trend that began in 1981. The four year decline had been gradual, but steady. However, the increase we saw last year was substantial enough to virtually eliminate the gains made during the past four years. Undoubtedly there are many contributing factors to the rise in crime. Sociologists, academicians and members of the criminal justice system will all have theories as to the cause of this increase. While finding the cause is important, finding a solution to the crime problem should be paramount.

As law enforcement officers and administrators, we undertake the monumental task of attempting to provide a crime free environment for the citizens we serve. A task made more difficult by a system of justice that jails drunk drivers while granting probation to dope pushers. Even so, given adequate resources we can make an impact on the crime problem. Unfortunately, while we see a tremendous growth in population, business and housing, the needs of law enforcement have not kept pace. Today we are asked to do more with the same or less.

As you read through this edition of "Crime in Colorado" remember that the crime problem is not unique to one agency or one county or one area. It is a statewide problem. Criminals know no jurisdictional boundaries. We must work together to make maximum use of our limited resources if we expect to wage a successful battle in the war against crime. We must educate our councilmen, commissioners and legislators to the importance of providing adequate financial support for law enforcement. If we fail to do this, we will continue to slip backwards until we become a society of victims, afraid of the dark.

Sincerely,

COLORADO BUREAU OF INVESTIGATION

The 1985 edition of "Crime in Colorado" represents the most complete picture of annual crime statistics ever compiled by the Colorado Bureau of Investigation. Each year, since Colorado's Uniform Crime Reporting Program began in 1976, we have endeavored to make the annual report more complete, more useful and more reflective of the overall crime problem within our state. To this end, we have changed both the style of print and the format of the book. But beyond that, we have worked to get 100% participation from every local law enforcement agency in this state. It is only through the dedicated efforts of the CBI staff and the hundreds of local agencies that we are able to reach this goal. In 1985 we had over 99.9% complete reporting. Our hats are off to all of you that contributed to the success of this program.

Nationally, Uniform Crime Reporting is undergoing its most significant change since it began in 1930. The UCR of the future will be designed to track a greater number of crimes in much more detail. The law enforcement administrator of the 1980's is realizing a need for comprehensive statistical information behind that presently found in the Uniform Crime Reports. New and innovative approaches will be developed to capture and disseminate this information. Colorado plans to meet this challenge head on. As we move toward a new UCR, we will strive to make the transition as painless as possible. We, at the state level, will keep you informed every step of the way.

There is no easy answer to the problem of crime in our streets. But certainly, a unified method of reporting, which provides a comprehensive picture of that problem is ammunition we can't afford to be without.

INTRODUCTION

Two-hundred thirty-three law enforcement agencies reported crime statistics to the Colorado Bureau of Investigation during 1985. This included 62 sheriffs' departments, 169 municipal and other local agencies, plus the Colorado State Patrol and the Division of Wildlife.

The on-line incident by incident phase of the State Crime Statistics Program included 96 of the above agencies. This direct input is supplemented by the entry of the hard copy summary reports by the CBI staff. The statistics are collected and stored in the Colorado Crime Information Center (CCIC) computer.

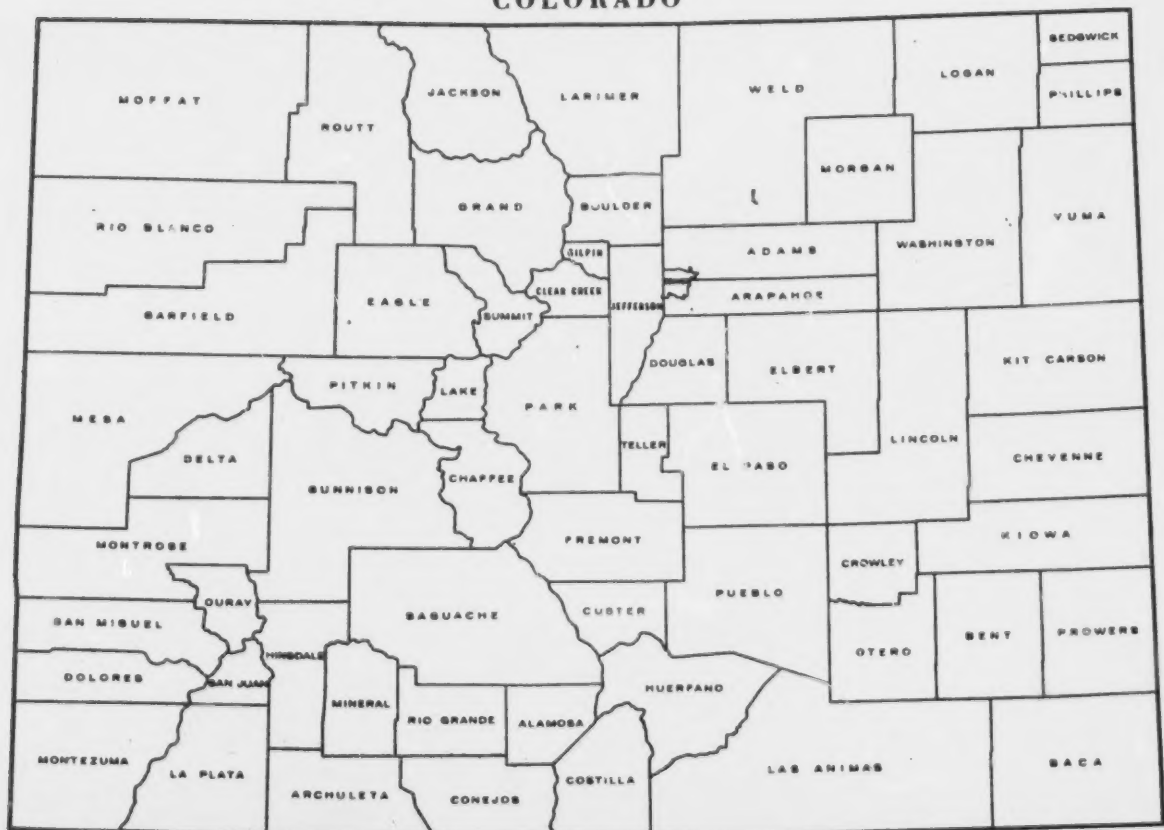

Agencies reporting Part II offenses to the CBI via CCIC receive monthly and annual summary reports from the CBI concerning those Part II incidents.

TRAINING ASSISTANCE

The CCIC staff provides continuing quality control, monitoring, and training assistance to the personnel of over 250 criminal justice agencies statewide. This assistance insures that accurate, complete, and properly classified crime information is identified, recorded, and reported.

Files maintained relate to crime, arrests, arrest disposition, fugitives, and stolen and/or recovered property. The CCIC staff also assures proper use by over 2,000 CCIC terminal operators of the state and national law enforcement telecommunications systems.

THE INDEX OF CRIME

The crime index consists of the seven most commonly reported offenses which compose the Part I crimes: murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft. (Excludes "manslaughter by negligence and simple assaults"). The tabulations on the following pages present a summary picture of Part I crimes for the State of Colorado. Reference to the Uniform Crime Reporting definitions of each of these crimes should be made for a more precise understanding of what kinds of criminal activity these statistics represent.

The seven index crimes are also divided into two groups to enable further analysis. The categories and their components are:

VIOLENT CRIMES

Murder
Forcible Rape
Robbery
Aggravated Assault

PROPERTY CRIMES

Burglary
Larceny-theft
Motor Vehicle Theft

For 1985 both the number of actual offenses reported and the rate of occurrence increased. The crime rate is the number of actual crimes reported for every 100,000 inhabitants. Based upon a 1985 estimated Colorado population of 3,251,406 the crime rate rose 8.8% while the number of reported offenses increased by 10.0%. Both the violent crime and property crime totals increased in 1985. The chart below reflects those changes.

Summaries by Jurisdiction

The following pages summarize crime reported by type of offense, by reporting jurisdiction. If an agency name is missing, or if no reported crime is shown, it is because either no reports were received from those agencies, or they reported through their sheriff's offices.

Caution should be used when comparing one county's figures against another's. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

PROPERTY STOLEN AND RECOVERED

Summaries by Jurisdiction

The next 32 pages reflect county-wide summaries of the value of property reported stolen and recovered. Each county report includes figures from all agencies in the county that made reports. The law enforcement agencies participating in the crime reporting program each have total figures for their respective jurisdictions.

Caution should be used when comparing one county's figures against another. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

COLORADO ARREST DATA

Submitting agencies are required to report monthly the number of arrests made for offenses committed within their jurisdictional limits.

There is no direct correlation between persons arrested, the number of offenses reported or the number of offenses cleared. Several persons could be arrested for the same offense or the arrest of one person may clear several offenses. A person is counted only once each time arrested. Therefore, if a person is arrested but wanted for several crimes within the same jurisdiction, he or she would be scored only once for the most serious crime in accordance with the hierarchy rule. The same process is applicable whether the arrestee is adult or juvenile.

Volume and Rate

Reported arrests in Colorado totaled 240,734 for Part I and Part II crimes in 1985. This represents an 9.5% increase over 1984. There were 7,404 arrests per 100,000 persons in 1985 as compared with 6,836 per 100,000 persons in 1984. Part I arrests accounted for 26.3% of the total arrests. Of those Part I offenses, Larceny-Theft comprised the greater portion with 51.6%. The greatest percentage of Part II arrests were for All Other Offenses (except traffic), 46.9%, followed by Driving Under the Influence, 29.9%. During 1985, arrests for violent crimes (Murder, Forcible Rape, Robbery and Aggravated Assault) accounted for 9.4% of all Part I arrests and 2.5% of the total arrests.

Arrests by Age

The number of persons under the age of 18 (Juveniles) arrested during 1985 increased 9.2% over 1984. Arrests of juveniles for Part I crimes increased 3.3% compared to 1984. The number of persons over the age of 18 (Adult) arrested during 1985 increased 9.6% over 1984. Arrests of adults for Part I crimes increased 12.4% compared to 1984.

Arrest by Sex

Of the 240,734 total arrests in 1985, the greatest percentage of arrests were male, 79.6%, exactly the same ratio as in 1984. Females accounted for the remaining 20.4% of the 1985 arrests.

ARRESTS REPORTED

Summaries by Jurisdiction

The following pages summarize crime reported by type of offense, by reporting jurisdiction. If an agency name is missing, or if no reported crime is shown, it is because either no reports were received from those agencies, or they reported through their sheriff's offices.

Caution should be used when comparing one county's figures against another's. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.
